Midwifery's first MOOC

A MOOC is a Massive Open Online Course and Midwifery's first MOOC is about to start!

This six week course aims to enhance your understanding of Evidence Based Midwifery Practice.

The course is at introductory level and will include a variety of online educational materials, opportunities for discussion with midwives across the globe and live interactive presentations from pre-eminent midwifery leaders.

Earn continuing professional development points and a "certificate of completion" from the University College Lillebælt (Denmark)

Register now at;
